

Argument Against Measure G

Orange County residents already are among the highest taxed in America. BOUSD has access to over \$20 million that could address many maintenance issues. **If Brea voters pass Measure G and the district issues a 30 year bond, owning a median priced Brea home will result in \$10,657 in additional property taxes! Measure G increases our taxes over 25-40 years by \$123 Million (before Interest and fees)! Commercial property owners and businesses pass on higher taxes by RAISING RENTS and PRICES TO CONSUMERS.**

Leaky roofs, asbestos, and faulty wiring are buzzwords, used to scare caring residents into voting themselves into **years of financial bondage. We have to budget for emergencies; shouldn't they?**

A bond works like a credit card. To pay it off, the government must raise your taxes. These increases are **IN ADDITION TO OTHER TAXES ALREADY CHARGED SUCH AS:**

- Property Taxes
- OCSD Sewer User Fee
- NOC Community College
- Paramedic Taxes
- 1999 Brea School Bond Taxes till 2030
- State School Bond Taxes
- Income Taxes
- Sales Taxes
- Utility Taxes
- Gasoline Taxes

AREN'T WE TAXED ENOUGH ALREADY?

WHAT TAX WILL THEY RAISE NEXT?

These new taxes are an attempted end-run around Howard Jarvis Prop. 13 protections! Brea's young families, first-time home-owners and **seniors on fixed incomes** cannot absorb these continual, life-long tax increases.

Just eight years ago, California voters approved Proposition 30's "temporary taxes". Proposition 30 raised income taxes and sales taxes. Then via Proposition 55 in 2016, most of those same "temporary taxes" were extended twelve years! Both times the teachers' unions promised "billions in funding for our schools".

SCHOOL DISTRICTS DO NOT HAVE A REVENUE PROBLEM, THEY HAVE A SPENDING PROBLEM. Tell education bureaucrats they need to live within their means **instead of relying upon over-burdened taxpayers to pay ever increasing taxes!**

VOTE NO ON MEASURE G!
